

KEY INVESTOR INFORMATION

This document provides you with key investor information about the Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in the Fund. You are advised to read it so you can make an informed decision about whether to invest.

Global Bond Fund, a sub-fund of the RBS Investment Funds ICVC

(Accumulation share class I ISIN: GB00BGWL7D45 / Income share class I ISIN: GB00BGWKS495)

The Fund is managed by RBS Collective Investment Funds Limited.

OBJECTIVES AND INVESTMENT POLICY

The objective of the Fund is to provide a regular income over the long term.

The current policy of the Fund is to achieve a broad exposure to UK and overseas bonds, principally those issued by companies. The Fund will do this by investing in a range of other funds as well as investing directly in bonds. Bonds may be Investment Grade, or where unrated deemed equivalent thereto by the Investment Manager, or may be sub-Investment Grade. The Fund will be managed relative to the Benchmark shown below. The Investment Manager will manage the risk profile of the Fund via divergence from the Benchmark within an agreed Tracking Error of 4%.

Managing the Fund in this way will constrain the extent to which the Fund's performance differs from that of the Benchmark and therefore limit the potential return - both above and below the Benchmark return.

This is an active fund which means the Investment Manager makes the decisions about how to invest the Fund's money. These investment decisions will always be made within the constraints of the Fund's objectives and investment policy. The Benchmark is used to constrain the risk of the Fund but the Investment Manager will choose the assets held and does not aim to track the Benchmark.

Asset Class	Benchmark	Weight
Investment Grade Corporate Bonds	Bloomberg Barclays Global Aggregate Credit, TR Index Value Hedged GBP	75%
Sub-Investment Grade Corporate Bonds	Bloomberg Barclays Global High Yield, TR Index Value Hedged GBP	25%

The Benchmark above has been selected to determine the level of risk for the Fund.

Indices used within the Benchmark to represent particular asset classes have been chosen to provide an appropriate representation of those asset classes and due to the data being made available from the Index Provider at a reasonable cost.

For liquidity management purposes the Fund may also invest in cash instruments, deposits and cash funds.

The Fund may also use Derivatives for hedging and Efficient Portfolio Management purposes. Funds in which the Fund invests may also invest in Derivatives for investment purposes, as well as for hedging and Efficient Portfolio Management.

You may normally sell your shares in the Fund on each Business Day. Requests to sell received and accepted by 3pm on a Business Day will be dealt at the price calculated on that Business Day.

The Fund issues both Accumulation and Income shares. If you hold Income Shares you can choose to have your distribution of income paid directly to your bank or building society current account. Alternatively, you may choose to have income distributions automatically reinvested, to purchase further shares of the same Class and Fund.

The Fund is designed for retail customers with little or no experience of investing in collective investment schemes and basic or no knowledge of the characteristics and risks of investing in bonds (capital markets).

A typical investor in the Fund has a low to medium tolerance for risk; they accept that the value of their investment may fluctuate and they have a low to medium tolerance to bear losses to their capital. The minimum investment horizon is 5 years.

RISK AND REWARD PROFILE

These ratings indicate how the Fund may perform and the risk of losing some or all of your capital. Generally the potential for higher gains also means a higher risk of losses. The lowest rating does not mean a risk free investment.

The Fund is ranked at 3 because funds of this type have experienced low to medium rises and falls in value in the past. The risk and reward category for the Fund is not guaranteed to remain unchanged, and may shift over time.

Historical data, such as is used for calculating the rating, may not be a reliable indication of the future risk profile of the Fund.

The following risk factors contribute to the overall risk and reward indicator:

1. The Fund will invest principally in UK and overseas bonds, so changes in interest rates or the credit rating of companies issuing such bonds will affect Fund performance and income paid. The solvency of organisations in which the Fund invests can change and this can affect the Fund's capital and any income paid.
2. As the Fund holds fixed interest securities the level of income that the Fund provides will often vary from one payment to another. In addition, the share price and income from the Fund will rise and fall due to movements in interest rates and inflation.
3. The Fund invests in overseas investments and the share price will go up and down in line with movements in exchange rates as well as the changes in value of the Fund's holdings.
4. We take some or all of the annual management charge from capital. Because of this, your capital may be reduced over time if the Fund's growth doesn't compensate for it.

CHARGES

One-off charges taken before or after you invest	
Entry charge	None
Exit charge	None
This is the maximum that might be taken out of your money before it is invested or paid out	
Charges taken from the Fund over a year	
Ongoing charge	1.01%
Charges taken from the Fund under certain specific conditions	
Performance fee	None

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it, but not the costs of any advice you have been given. These charges reduce the growth of your investment.

Any entry and exit charges shown are maximum figures, and in some cases investors may pay less.

The ongoing charges figure shown here is an estimate of the charges.

The ongoing charges figure would ordinarily be based on expenses incurred in the previous financial year. As the Fund was launched on 17 May 2019 insufficient data is available and therefore the ongoing charge has been estimated.

For more information about charges, please see the Fees and Expenses section of the Fund's Prospectus.

PAST PERFORMANCE

As the Fund was launched on 17 May 2019 past performance is not available. Past performance is not a reliable guide to future performance.

PRACTICAL INFORMATION

The Depositary for the Fund is The Bank of New York Mellon (International) Limited who are responsible for the safekeeping of the Fund's assets and ensuring the Fund is managed in accordance with FCA rules.
